Fuel consumption^{5,6,7}

Combined (consumption dependent on chosen optional equipment)	l/100km mpg	7.4-8.8 38.2-32.1	1.8-2.1 156.9-134.5	9.0-9.5 31.4-29.7	11.9-12.4 23.7-22.8
---	----------------	----------------------	------------------------	----------------------	------------------------

⁴Figures according to Directive 92/21/EC (kerb weight with fuel tank 90% full, driver, 68 kg, and luggage, 7 kg) for standard-specification vehicles. Optional extras and accessories will generally increase this figure and reduce the payload capacity accordingly

⁵All figures are based on a standard specification with the smallest tyre size. ⁶The choice of wheels and transmission may affect CO₂ emissions and corresponding Road Fund Licence

⁷The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK.

For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging

Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>
